Mast Ram from Neutral	- 20mm	0mm > +20mm	+ 10mm	+20mm	+20mm
Kicker	Slack	Slack out	Control twist	Tight/Max	Max/Slight ease
Outhaul	Tight no foot crease	Eased 5-10	Tight	Tight no foot crease	Max
Cunningham	No	No	No > take up slack	Medium	Max
Jib Luff	Wrinkles	Very Small Wrinkles	Just take out Wrinkles	No Wrinkles	Tight
Centreboard	Vertical	Vertical	1-2inch up	2-4inch up	4-6inch up
Spreader Deflection	140mm				
Spreader Length	475mm				

Mast Rake measure from top mast band to top edge of transom (Hartley MK4). Measure 20' to lower band as datum.

Mast bend on 24'6 with no strut should be 10mm. Mark this as the neutral strut position on the deck. Negative strut is movements forward, increasing bend, positive is movements back reducing bend.
